

The screenshot shows a web browser window with the address bar displaying `192.168.56.102:3000/loggedin`. The page content includes the text "you are logged in as user2" and two links: [change totp](#) and [logout](#). Below the page content is a developer console with the "Console" tab selected. The console shows the following network activity:

Method	URL	Status	Response
POST	<a href="http://192.168.56.102:3000/login">http://192.168.56.102:3000/login</a>	302 Moved Temporarily	165ms
GET	<a href="https://a.totp.me:8443/otps">https://a.totp.me:8443/otps</a>	302 Moved Temporarily	38ms
GET	<a href="http://192.168.56.102:3000/otp_response">http://192.168.56.102:3000/otp_response</a>	302 Moved Temporarily	157ms
GET	<a href="http://192.168.56.102:3000/loggedin">http://192.168.56.102:3000/loggedin</a>	304 Not Modified	1ms

A red arrow points from the "Security" tab in the developer console to the second row of the network log, which is the GET request to `https://a.totp.me:8443/otps`.

The screenshot shows a web browser window with two tabs: 'otp' and 'otps'. The address bar shows the URL `https://a.totp.me:8443/otps` with a red circle around the domain part. The search engine is DuckDuckGo. The page content displays:

TOTP authentication is: inactive  
[activate](#)  
[backup codes](#)  
[exit TOTP configuration](#)

The browser's developer console is open, showing the following network and error logs:

```
GET http://192.168.56.102:3000/changetotp [HTTP/1.1 302 Moved Temporarily 169ms]
GET https://a.totp.me:8443/otps [HTTP/1.1 200 OK 523ms]
✘ ReferenceError: Prototype is not defined scriptaculo...:276
✘ ReferenceError: Ajax is not defined weblocks.js:57
✘ ReferenceError: Position is not defined dialog.js:2
```

otp    otps

https://a.totp.me:8443/otps    DuckDuckGo

This is your TOTP master secret for two factor authentication. Feed it into your TOTP device. You can turn your phone into a TOTP device by downloading [Google Authenticator](#) onto it.

scannable QR code

or base32 encoded for manual entry ("time-based")  
j76kw3k3louhge342d57h2pdxvw2tbmy

Confirm by entering the device generated six digit code:

[skip](#)  
[backup codes](#)  
[exit TOTP configuration](#)

```

The screenshot shows a web browser window with two tabs. The active tab is titled 'otps' and the address bar shows 'https://a.totp.me:8443/otps'. The page content includes a heading 'Backup Codes', a paragraph of instructions, a note, a list of ten backup codes, and a 'back' link. The browser's developer console is open at the bottom, displaying network requests and JavaScript errors.

**Backup Codes**

Write these down. Use them once each in sequence whenever you don't have access to your TOTP device. Generate fresh ones before you run out.

Note: any previous backup codes you may have will no longer work.
